Linda Gregory had a question reference the street lights. In 2008 or 2009, the city received a department of energy grant to replace lights with LED's are these updates of the same project. Donnie Wright or Adam Leach were employed by the City of Muncie for 2008 or 2009 could not answer Linda's question. (FYI Linda Hayes was working at the street department and remembers that the grant Linda referenced too was for the purchase of LED Bulbs (Red-Green-Yellow) for the Traffic Signals within the City of Muncie's corporate limits). Donnie Wright came forward and informed the Board members that Indiana & Michigan Electric recently removed all their high-pressure sodium streetlights with LED Bulbs. My signal techs have been updating our city owned streetlights with LED bulbs. President Gregory entertained a motion. Lola Mauer made motion to approve register of claims **269 Records** for a total amount of **\$287,174.27** as presented. Ted Baker provided the second. Motion passed by voice vote.

Linda Gregory mentioned that the Mayor's Office received an anonymous call on one of the contracts that we approved last week for CBDG to ecoREHAB. The called claimed that one of the properties had nothing on the property. After investigation, the address was wrong that the called referred too instead of 720 S. Jefferson it was 1720 S. Jefferson there indeed is a house there that is being rehabbed by ecoREHAB. We appreciate the comment and glad that we got it resolved so quickly.
