- Yes. The same state restrictions apply within the District as outside the District. For instance, if your desired location falls within 200 feet of a church or a school, you will need to go through the variance process to see if you might be granted an exception.

Why isn't the District bigger?

- For two reasons:
 1. The District was developed as tool to encourage the development in such a way that builds critical mass in a defined area.
 2. The District had to meet certain criteria as defined by Indiana State Code such as be within 1,500 feet or three blocks from the river and fall within a redevelopment area.

What types of establishments was the District designed to attract?

- Dining, entertainment, and cultural establishments.

Is there any limit to the number of riverfront licenses that can be issued within the District?

No. The idea behind the District is to activate the river as a destination for dining, culture, and entertainment by encouraging rather than limiting these types of establishments. There are, however, requirements above and beyond those set by the Alcohol and Tobacco Commission (ATC) that any business applying for a riverfront license must meet. Thus the limitations are not about numbers but type.

Who issues the license?

- The license is issued by the State of Indiana through the Alcohol and Tobacco Commission.
